

## *African American National Anthem*

*I've been aware of this Hymn for years, coming across it in various publications, but never took it on due to the fistfuls of notes in every arrangement I've seen (lots of chords which prevent smooth transitions from one to the next).*

*Recently, I had an impulse to try to apply my arrangement technique to Johnson & Johnson's beautiful song:*

*I think I've succeeded, as I've yet to come up with a performance that can match the tempo of any of my (admittedly tentative) performances, published here on my Home Page with organ or piano scores (for anyone 's free download!)*
